SUMMARY OF INFORMATION

Site consists of an object<sup>5</sup> that is long and slender down the middle and has two identical triangular discs<sup>15</sup> or wings attached to it. Object moves in an upward or forward fashion.

There is much activity and motion<sup>5</sup> or movement at the site caused by the object.

I sensed people at the site but could not see them all at once. The people could be spread out<sup>0</sup> or could be away from the object.

I did see one young man who wore<sup>0</sup> big brown glasses.

I seemed to be outside and there was not much around me<sup>5</sup> except the object.
